

# CATHOLIC PUPILS CITY COUNCIL ENDS AGREEMENT WITH HANDSOME CONTRACTORS ON THE SEWER

Patriotic Instructor Edward Johnson on Behalf of Grand Army, Will Tender Them Their Pretty U. S. Flag.

## PATRIOTIC PROGRAM WILL BE RENDERED TWENTY-FIVE THOUSAND DOLLARS LEFT FOR WORK

In line with the policy of patriotic education that has been pursued by the Grand Army of the Republic for long time, the local post of that organization will in the immediate future present a handsome flag to the children of the Immaculate Conception school. The exact date of the presentation exercises has not yet been fixed, but it will be one day next week.

The ladies of the parish are to have a meeting in a few days to arrange the details of the presentation and to formulate a program which will be interesting and inspiring. The flag will be presented by Patriotic Instructor Edward Johnson on behalf of the Grand Army, and will be accepted by Rev. Father Mandolini for the school. A number of speeches will be made and a patriotic musical program will also be rendered by the children. Patriotism and loyalty to the flag will be the keynote of the occasion and will characterize all of the numbers on the program.

The plan of presenting flags to the various schools of the country is one that has met with enthusiastic response and approval throughout the United States, and has done much to educate the children in history and to inspire in them a spirit of loyalty and devotion to the flag of their country. The Women's Corps, an auxiliary of the G. A. R. to membership in which only blood relatives of veterans are eligible, has done a large part of this educational work, and it was through the local Women's Corps that the initiative was taken in presenting the flag to the Immaculate Conception school.

Father Mandolini is heartily in sympathy with the movement to instill patriotic education in the children of the country, and is warm in his expression of appreciation of the purposes of the presentation. The exercises next week will be of a specially interesting character and will no doubt draw out a large and appreciative audience. The presentation will be held in the auditorium of the Immaculate Conception school.

## FORAKER IS SUED FOR AUTO SMASH

**U. S. Marshal Made Defendant in Suit for \$15,000 on Allegation That His Machine Hit W. P. Yarbrough.**

Suit was filed in the second judicial court this morning by W. P. Yarbrough against United States Marshal C. M. Foraker, asking \$15,000 damages, and charging that on Sept. 13 last, the latter driving an automobile "collided and ran into" Yarbrough while he was walking on Central Avenue in this city, and threw him to the ground, causing several injuries. Plaintiff alleges that he has been permanently injured and disabled and rendered incapable of making a living as a result of the marshal's "excessive negligence and dangerous" driving. The complaint declares that defendant failed to give warning by going so far as my means whatever. H. B. Cornell is attorney for the plaintiff.

## SENATE CONSIDERING RECIPROCITY MEASURE

Between Now and May 13 Upper Branch Will Discuss Agreement After Which Date It Will Be Reported from House.

City Will Continue Construction on System With Money on Hand: About \$20,000 Due From Concern.

## PEACE NOT LIKELY IN MEXICO

Albuquerque Lawyer Visits Madero's Camp and Talks With Rebels About Outcome of Negotiations for Reforms

Another Chicago man returned yesterday evening from a week's stay in the camp of Madero's insurgents army near Juarez, Mexico. Mr. Baca, speaking of what he observed, writes as follows:

"It is very doubtful that anything will come of the pending peace negotiations. The provisional government of which Francisco I. Madero is the head has grave doubts of the sincerity of the Diaz government in seeking an armistice under the pretense of obtaining peace in the republic by making concessions to the participants in the revolt. It seems that Senor Carrizal, the Diaz peace envoy, is not empowered to enter into any negotiations but simply to learn the demands of Madero and his followers so that he may report them to Diaz and the Mexican congress, which is now in session for their consideration. Since the demands of Madero are such as would introduce reforms not desired by the Diaz administration, and which, if accepted, would result in the complete overthrow of Diaz and his party of federal officeholders, it does not seem possible that Madero will be listened to."

Another thing. It is now apparent in spite of the strict censorship of the news dispatches that the revolt has spread throughout the entire republic. Such being the case, it is not to be believed that the government, in an eleventh-hour repudiation, can calm the inflamed minds of the populace. As for the other insurgents leaders, Francisco Madero, his two brothers Gustavo and Raúl, and Abram and Santiago González, they will never accede to any terms of peace save those that will effectively give Mexico a democratic form of government and do away with the countless abuses of the present system. They are men of the highest intelligence, honor and determination to fight until the liberation of Mexico is attained.
